Peterborough

The Peterborough industrial market is an essential part of the UK's broader industrial and logistics sector. Located in the East of England, Peterborough benefits from its strategic positioning, offering strong transport links via the A1(M), A14, and direct access to London, which makes it an attractive location for businesses looking for distribution hubs or manufacturing spaces. Due to its proximity to key transport corridors, there is strong demand for warehouses and distribution centre's, particularly from e-commerce, retail, and logistics companies.

Location

The property occupies a prominent position at the junction of Newark Road and Boongate within the well-established Fengate commercial district of Peterborough. This prime business location is just 0.25 miles from Junction 5 of the A1139 Frank Perkins Parkway, providing excellent connectivity for occupiers.

The A1139 links directly to the A605 Fletton Parkway, giving access to Junction 17 of the A1(M) only 6 miles to the west, ensuring fast routes to regional and national road networks.

Peterborough city centre and the mainline railway station—offering direct services to London King's Cross—are situated just 1.5 miles west, making the property highly accessible for both staff and clients.
